

ISO TANKS & CHASSIS

Hoover CS ISO Tanks are an ideal solution for the storage and transportation of hazardous and non-hazardous industrial and specialty chemicals and liquids within North America. Our ISO rentals come with a 43-foot drop deck Chassis and are specifically designed to provide a safe, reliable, and cost-effective way to transport in bulk. To further support our customers, we provide integrity management services (bulk tank wash, repairs, reconditioning, and recertification) at our Permian Basin Service Center located in Odessa, Texas.

NOMINAL CAPACITIES

- 6,340 gallons / 24,000 liters

- Last Mile Delivery – transloading, on-site/in-region storage capabilities

ENVIRONMENTAL IMPACT

Our reusable packaging supports the following United Nations' Sustainable Development Goals:

ABOUT HOOVER CS

We are paving the way for companies across the chemical, refining and general industrial-end markets to move away from single-use containers. Through our large rental fleet of reusable IBCs, ISO tanks, and Catalyst Bins, combined with integrity management and fleet management services, our sustainable chemical and catalyst packaging solutions facilitate circularity across the supply chain, yielding an optimized environmental footprint through reduced plastic, water conservation, and lower greenhouse gas emissions.
