

5 Advantages of IBCs over Drums

Reduce your total cost of ownership by choosing reusable, environmentally friendly Intermediate Bulk Containers for the storage and transportation of your chemicals & liquids.

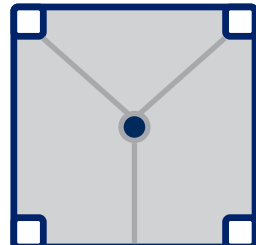

One 550-Gallon Stainless Steel IBC is the Equivalent of 10 Drums

1. IBCs Eliminate the Need for Pallets

2. IBCs Prevent Product Loss by 100%

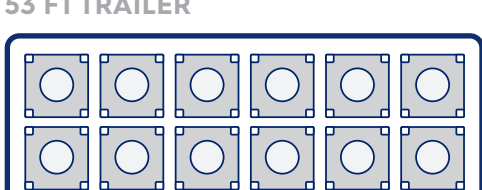

INSIDE BOTTOM OF IBC

Sloped Bottom guarantees complete drain of product

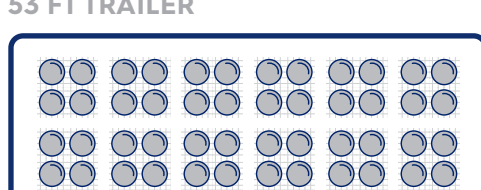

3. IBCs Optimize Product Volume Delivery by 25%

53 FT TRAILER

12 IBCs **1** Stack **6,600** Gallons

53 FT TRAILER

96 Drums **2** Stacks **5,280** Gallons

4. IBCs Generate Savings on Handling

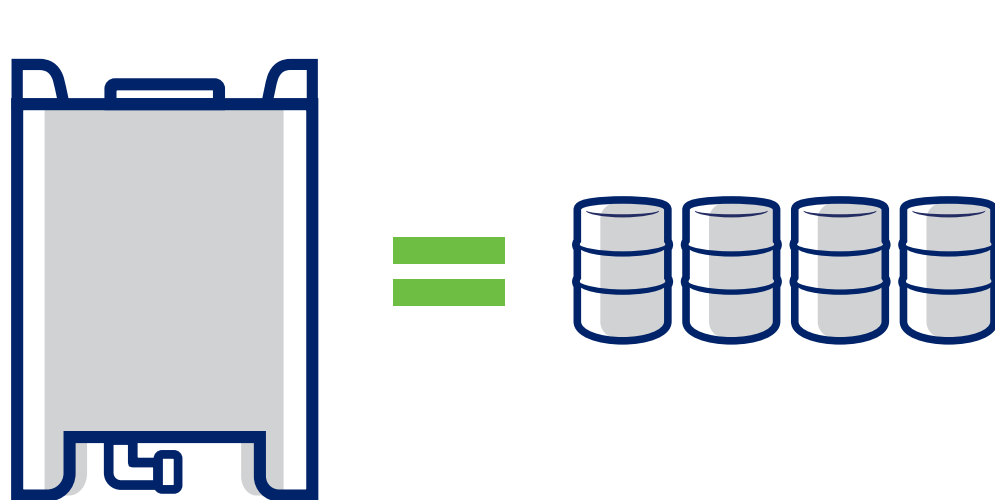

Average Manpower for **12 IBCs**

Average Manpower for **96 Drums**

5. IBCs Improve Storage Footprint by 46%

One IBC

Utilizes 144 cu. in.

4 Drums

Utilizes 264 cu. in.

Making the Switch...

Reduces Packaging Costs

Total cost of ownership is reduced by utilizing fewer IBCs with improved storage volume and less overall trips.

Enhances Safety

IBCs require less manpower, energy, and time, thereby reducing handling and improving accident and injury rates.

Positively Impacts Environment

The useful life of a reusable stainless-steel IBC is 25+ years, minimizes spills and contamination, and eliminates waste.
