

ISO TANKS & CHASSIS

Hoover CS ISO Tanks are an ideal solution for the storage and transportation of hazardous & non-hazardous liquids and chemicals within North America. Our standard ISO Tank and Chassis are specifically designed to provide a safe, reliable, and cost-effective way to transport in bulk and supports various needs, such as onshore oil & gas operations, wellsite delivery, intermodal transport, and more. To further support our customers, we can also provide integrity management services (bulk tank wash, repairs, reconditioning, and recertification) at our Permian Basin Service Center located in Odessa, Texas. It's never been easier to partner with Hoover CS, so consider us a one-stop-shop for all your ISO Tank needs.

NOMINAL CAPACITIES

- 5,548 gallons / 21,000 liters

FLEET MANAGEMENT VIA FLEETAI™

- Tank availability
- Asset tracking
- Level monitoring
- Document storage
- Analytical reporting

ENVIRONMENTAL IMPACT

Our reusable packaging supports the following United Nations' Sustainable Development Goals:

ABOUT HOOVER CS

We are paving the way for companies across the chemical, refining and general industrial-end markets to move away from single-use containers. Through our large rental fleet of reusable liquid and dry IBCs and ISO tanks, combined with integrity management and fleet management services, our sustainable packaging solutions facilitate circularity across the supply chain, yielding an optimized environmental footprint through reduced plastic, water conservation, and lower greenhouse gas emissions.
